Drink and Think

Come hear about one of Shea Homes' hottest new communities! Fox Point Farms, located in Encinitas, is an Agri-hood that features a 5.5-acre farm, 2-acre farm amenity area, and 250 new condominium homes including 40 very-low income, deed restricted units. Master-planned by Nolen Communities with a focus on sustainability, amenity space, and design, Fox Point Farms is an example of infill development embraced by planners, neighbors, and the market. Come hear and see how Nolen's principals Brian Grover and Sean Kilkenny navigated the entitlement process, working with planners and designers to imagine a unique community unanimously supported by the Encinitas Planning Commission and City Council.
